

Spanish trio Jupiter Lion have shared their latest offering 'Doppelgänger', an intense danceable number glazed over with their very own psychedelic veneer. The single is a lead-in to the band's follow up to 2013's cinematic debut 'Silver Mouth', due out on BCore later this year.

'Doppelgänger' offers another string to the menacing bow of Jupiter Lion combining their signature vintage synths and high energy jazz. While inspiration comes in the form of the chirpy minimalism of Nisennenmondai, this track is certainly no Doppelgänger of their Japanese stimulus.

Long stints in the studio as well as a death in their family have put the bands live performances briefly on hold, but not without increasing requests for their live shows. Having just played their third appearance at Barcelona's Primavera Sound, the band has already wrapped up support slots for both Spectrum and Dead Skeletons.
